Economic Scenario

For the Indian economy, 2013 has been one of its most disappointing years, with GDP growth plummeting to sub-5% levels even as inflation has remained stubbornly high. It is therefore natural that industry is hoping for better times in 2014. While there are early indications of a revival in the economy, it is by no means certain that a decisive turnaround will take place. The year 2014 has been a watershed for India in political and economic terms. The nation had its 16th general elections to form the new central government. India Ratings has maintained a stable outlook on the Indian Non-Bank Finance Companies (NBFC) sector for 2013. The sector faces the dual impact of rising credit costs and elevated funding costs in the year; however, India Ratings' stress test on asset quality and funding costs shows that the robust pre-provision operating profit (PPOP) at most of the major NBFCs rated by the agency provides a strong buffer against expected credit quality pressure.

Industry Outlook

Non Banking Finance Companies (NBFC) sector in India is represented by a mix of a few large Companies with nationwide presence and a few small and medium sized Companies with regional focus, primarily engaged in hire purchase financing, investments, corporate loans, IPO funding, venture capital and other non-fund based activities etc. The Reserve Bank of India regulates and supervises these NBFCs. Non-Banking Finance Companies (NBFCs) are an integral part of the country's financial system because of their complementary as well as competitive role. They act as a critical link in the overall financial system catering to a large market of niche customers. However, competition continues to be intense, as the Indian and Foreign banks have entered the retail lending business in a big way, thereby exerting pressure on margins. The erstwhile providers of funds have now become competitors. NBFCs can sustain in this competitive environment only through optimization of funding costs, identification of potential business areas, widening geographical reach, and use of technology, cost efficiencies, strict credit monitoring and raising the level of customer service.

Opportunities & Threats

The market in which your Company mainly operates is growing slowly. There are new players entering the semi urban and rural markets. This is likely to increase the competition. However, due to the escalating costs of the new commercial vehicles and many shying away from bank finances, the market for used commercial vehicles remains buoyant. However to utilize this opportunity, your company needs to recover and commence operations again.

Risks & Concerns

As an NBFC, your Company is subjected to both external risk and internal risk. External risk due to interest rate fluctuation, slowdown in economic growth rate, political instability, market volatility, decline in foreign exchange reserves, etc. Internal risk is associated with your Company's business which includes deployment of funds in specific projects, diversification into other business operations, retention of talented personnel, managing effective growth rate, volatility in interest rate, NPAs in portfolio, changes

incompliance norms and regulations, contingent liabilities and other legal proceedings. Your Company recognizes the importance of risk management and has invested in people, process and technologies to effectively mitigate the above risks.

Internal Control System

The Companies Internal control/supervisory system is established to ensure that board and management are able to achieve their business objectives in a prudent manner, safeguarding the interest of Companies shareholders and other stakeholders whilst minimizing the key risk such as fraud, misleading financial statements, breach of legal and contractual obligation, unauthorized business activity.

Human Resource

Your Company follows a strategy of attracting and retaining the best talent and keep employees engaged, motivated and innovative. The Company continues to have cordial relations with its employees and provide personnel development opportunities for all round exposure to them.

Financial & Operational Performance

Financial and Operational performance forms part of the Annual Report and is presented elsewhere in the report.

Cautionary Statement

Some of the Statements in Management discussion and Analysis describing company's objective may be “forward looking statement” within the meaning of applicable Securities law and Regulations. Actual results may differ substantially or materially from those expressed or implied. Important factors that could influence Companies operation include various global and domestic economic factors.
